

# Recursive Submodule Checkout

Jens Lehmann    Heiko Voigt

# Work Currently In Progress

- ▶ Reading `.gitmodules` from revision
- ▶ Fetch of all initialized submodules
- ▶ Update worktree of changed submodules
- ▶ Recreation of initialized submodules
- ▶ Deletion of submodules

# How Do We Plan To Enable It?

All work tree commands are controlled by:

- ▶ Commandline:

`--recurse-submodules`

- ▶ Global:

`submodules.autoupdate`

- ▶ Per module:

`submodule.<name>.autoupdate`

# Feedback Welcome
